WorkLooper

DEVELOPMENT & BRANDNG AGENCY

About Us

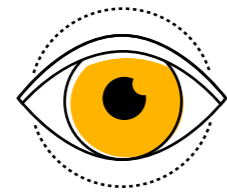

Fueling Digital Transformation

WorkLooper is a one-stop enterprise for all kinds of marketing, communication, and information technology solutions. Based out of the National Capital Region (NCR), we are a full-spectrum services provider and offer solutions around web designing, graphic designing, game development, app development, communication strategy, business branding and information technology solutions.

Our end-to-end smart marketing, communication and information technology solutions can empower businesses and enable them to achieve their goals. As we begin the journey to accelerate the growth of our clients, we fulfill their needs by providing a unique blend of consumer insights, research, design, and technology.

Being a customer-centric company, we are passionate about helping businesses thrive and grow. Our forte lies in developing & designing best-in-class websites, games, and creatives that bring our client's vision to life. Professionals at WorkLooper are committed to transforming businesses and creating innovative design experiences globally and locally.

Our Unique Selling Proposition (USP) is the customized creative solutions and services we bring to the table with utmost quality and in time.

Our Vision

- To transform businesses and foster growth by providing customized pack of services.
- To create a high-performing integrated network of professionals who can ensure the best in quality output.
- To build inclusive and healthy partnerships based on trust and mutual respect.

Our Mission

- To become the partner of choice for clients through constant technological innovation and best-in-class marketing strategies.

Our **GOLDEN** **Values**

Global Mindset

Enabling one to be aware and open about the diversity across cultures enhances the ability to understand the requisites of a diverse universe around us.

Open communication and collaboration

Open and honest communication builds a trustworthy environment, paving way for greater collaboration.

Lead by Example

Nurture leadership and growth by showing the path for others to follow.

Determination to deliver

Sustained efforts, attention to detail, quality and adherence to client deadlines to deliver the best-in-class output.

Empowering one another

Inculcating a collaborative environment by creating opportunities to rise and shine.

Nerve for challenges

Rebelling against the conventional and taking risks to go the extra mile.

GRAPHIC DESIGNING

CDCT

Civil Contracting Company

CDTC- Civil Development contracting and Trading is a civil contracting organization delivering a wide spectrum of construction services. On the basis of its long-term and solid relationships with clients, CDTC maintains a robust foundation.

We were assigned the task to design the brochure of CDTC, projecting the company's entire projects on real estate, which will also act as a company profile.

We converted the challenging task of layout creation along with image editing into an exceptional one. The brochure was designed in a manner that differentiated information about the company at the starting section, and the other end had the projects. We provided the web version of the brochure for the purpose of circulation, and we left the option for print as well.

LI-DAN SHANG

Tri-Fold resume Designing

WorkLooper was assigned the task of designing her resume as she applied for the post of lecturer at National Chung Cheng University for the Department of Economics. In a Microsoft word document, the rough draft was shared, which was then evaluated. Finally, with our creative solutions, the design was presented in an infographical way. We designed a tri-fold resume for her since it's pretty handy, and she can quickly and easily present her education, experience and skills. In this way, we helped her to stand out better than rest of the candidates.

EMULUS CONSULTING

Your Industry Our Solutions

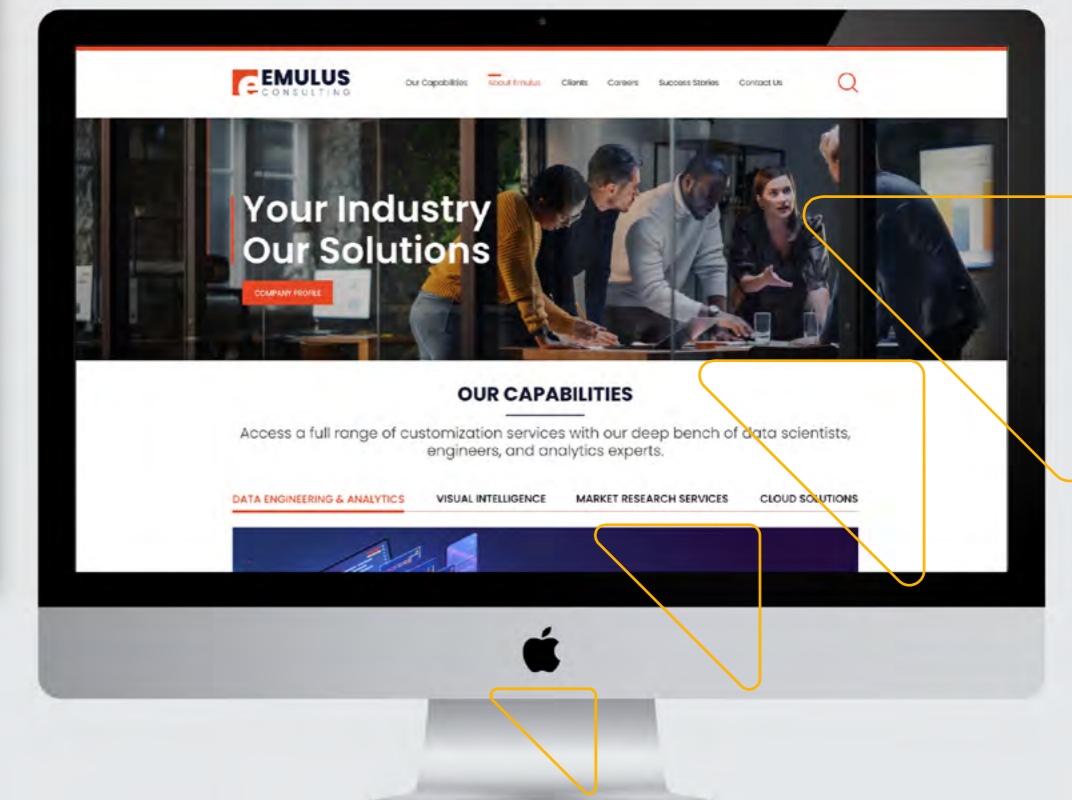

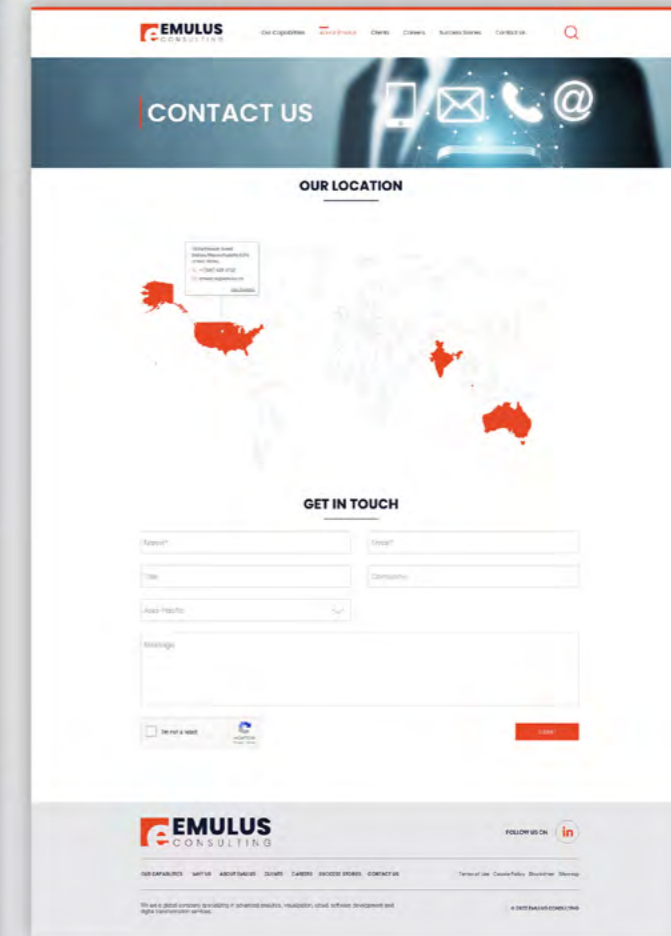

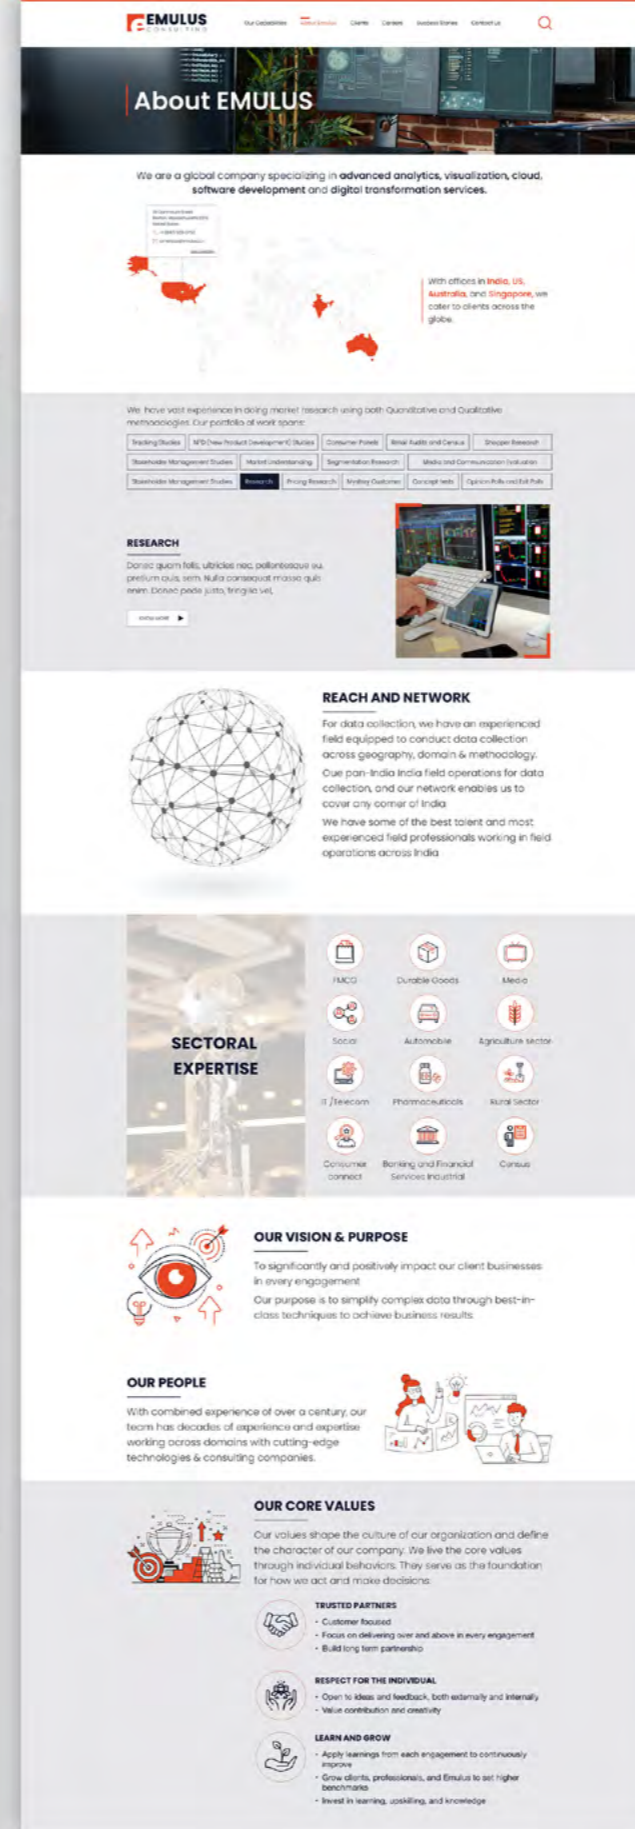

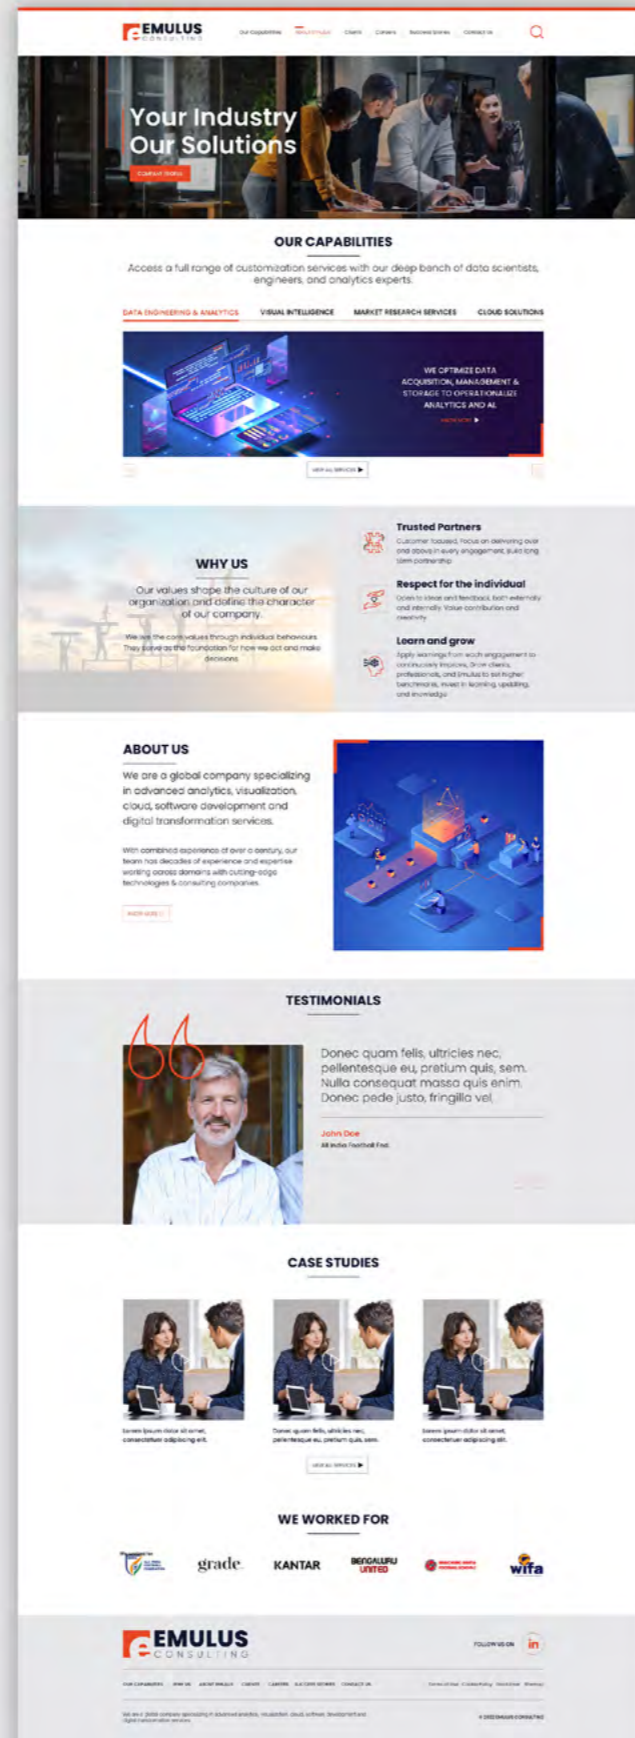

EMULUS consulting is a global company specializing in digital transformation services, software development, cloud, visualization, and advanced analytics.

We were assigned the task of designing EMULUS's website UI keeping in mind the branding guidelines of the company. It was quite a challenging task as the website design had to match with other websites of consulting such as Bain & company, BCG, etc.

Our service delivery team evaluated the entire draft which was provided in a Microsoft word document. With ease and precision, analysis was done on how the content will appear, infographically on the company's web page. With prototyping, the content was designed in Adobe XD.

PQ INVESTOR

Investor Presentation

Protein Quest was launched as a brand under “Embark Health” who are a global leader in cannabis extraction based in Canada. They initiated their project with branding.

To pitch the investors about their company, PQ needed to design the investor pitch deck, for which they came to WorkLooper. We were assigned the task of designing their company’s logo first and then the investor pitch deck.

The raw data was received in Microsoft PowerPoint. Understanding the requirement of the company, we first created the concept using the data. With the help of infographics, the layout was then created. Based on the client’s feedback, the presentation was finally delivered in Microsoft PowerPoint.

BOROADWAY CROWN

Restaurant Menu Designing

Broadway Crown is a restaurant operating in Australia serving all the gastropub favorites. From full venue cocktail parties to intimate private dining, the restaurant has a variety of spaces that suit your event.

They came with a requirement of designing a four pages menu card. They wished the design to be subtle yet elegant.

Playing along with the vectors, we kept the logo and the content quite prominent. The rest of the vectors were kept as supporting elements. Everything was designed from scratch to provide Broadway with a unique designing experience.

SAVILE ROW

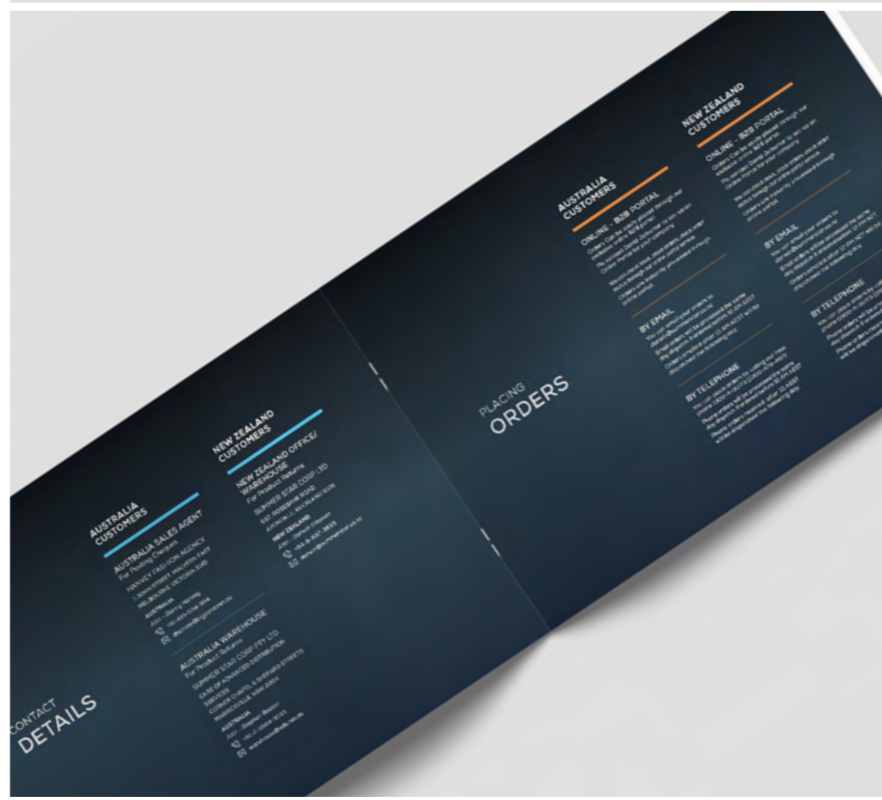

Tailoring Tradition

Savile Row is a luxurious brand principally known for its traditionally adapted tailoring for men. It is one of the best suit fabrics for men and enjoying its clientele in Australia and New Zealand.

They came up to us to design the catalog of their fabrics. Their only ask was to design an appealing inner designs and a classy cover page.

All the product details were given to us in a Microsoft Excel file along with images. We took care of the entire catalog, from conceptualizing to designing. The catalog was designed in Adobe InDesign and the final product received a lot of appreciation from the customers. For the new season, the second book is now designed by us.

GRANT THORNTON

SLUP Study Report

Grand Thornton is one of the leading professional service networks of independent consulting, tax, audit, advisory, and accounting firms globally.

We were assigned to design the total government report of their branding by following the proper guidelines. The raw data was given in Microsoft word.

We are well aware of what looks best and sells higher. Since it was a government facts report, we had to ensure that the data was presented in a manner that must attract a large number of the target audience. The report was prepared in Adobe InDesign. We ensured that the facts and figures were clearly visible, thus, serving the purpose of the report.

SUMMER COMPANY

Stationary branding for new company's launch

Summer Company is a startup company providing mentoring and training to the students on how to run their own student businesses.

They came up to us for stationary branding for the launch of their new company. We were assigned the task of making a corporate identity and a logo for them. The nature of their business was explained to us and they wished the nature of their business must be displayed in the logo.

We are aware of what looks best and what is pipe selling. We designed the visiting card, letterhead, stamp, and even the Facebook banner for them.

PASSION IN A PAN

Event Branding

Passion for Pan is a website for food blogging. The author of this website is an experienced individual in the culinary field, sharing various ideas and bringing out her culinary experiences to her audiences.

To participate in an event, they came up to us for designing a standee for that event.

Foremost, we gained information regarding the specifications relating to desired look, and size. Later, on the basis of that, a standee was designed by us that clearly depicted what exactly are they into and showcased their expertise. This helped them to capture the essence of their brand.

GRANT THORNTON

Mobius & LifeatGT

Grant Thornton is one of the leading professional service networks of independent consulting, tax, audit, advisory, and accounting firms in the world.

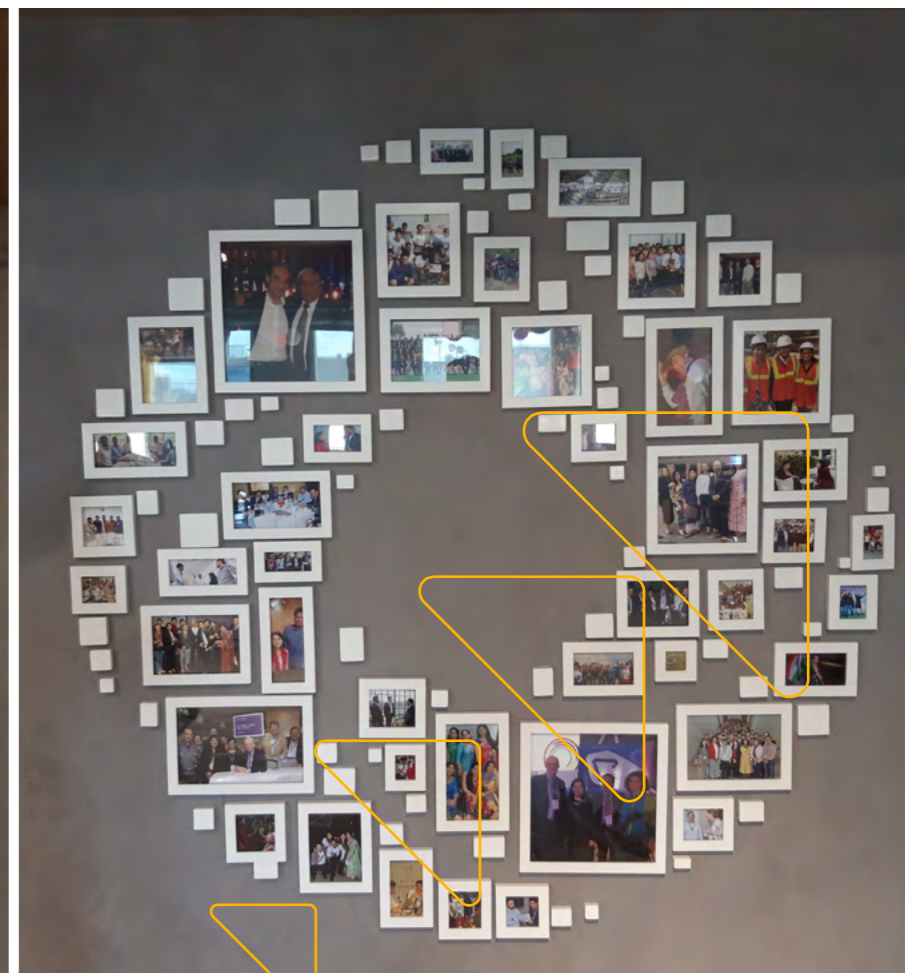

They wanted to dedicate an area for office branding. They approached us with the idea of creating a collage having all their meetings, events, and photos in the shape of their “THE MOBIUS” logo and the text “LIFE AT GT” along with it.

Our team visited GT’s office to measure and check the exact area. Based on the images shared by them and the measurements taken by us, we designed the entire Mobius by carefully dealing with where and how every image will be placed. After getting the approval of our design we placed the images on the frames. Our model now holds a prestigious position on the office wall of GT.

NATIONAL GRID SA

Infographic for Maintenance Business Line

National Grid SA is a subsidiary wholly owned by SEC (Saudi Electricity Company). It is responsible for planning, designing, developing, operating, and maintaining SA's transmission network, considering the best practices and highest international standards for delivering cost-effective and reliable services to its customers.

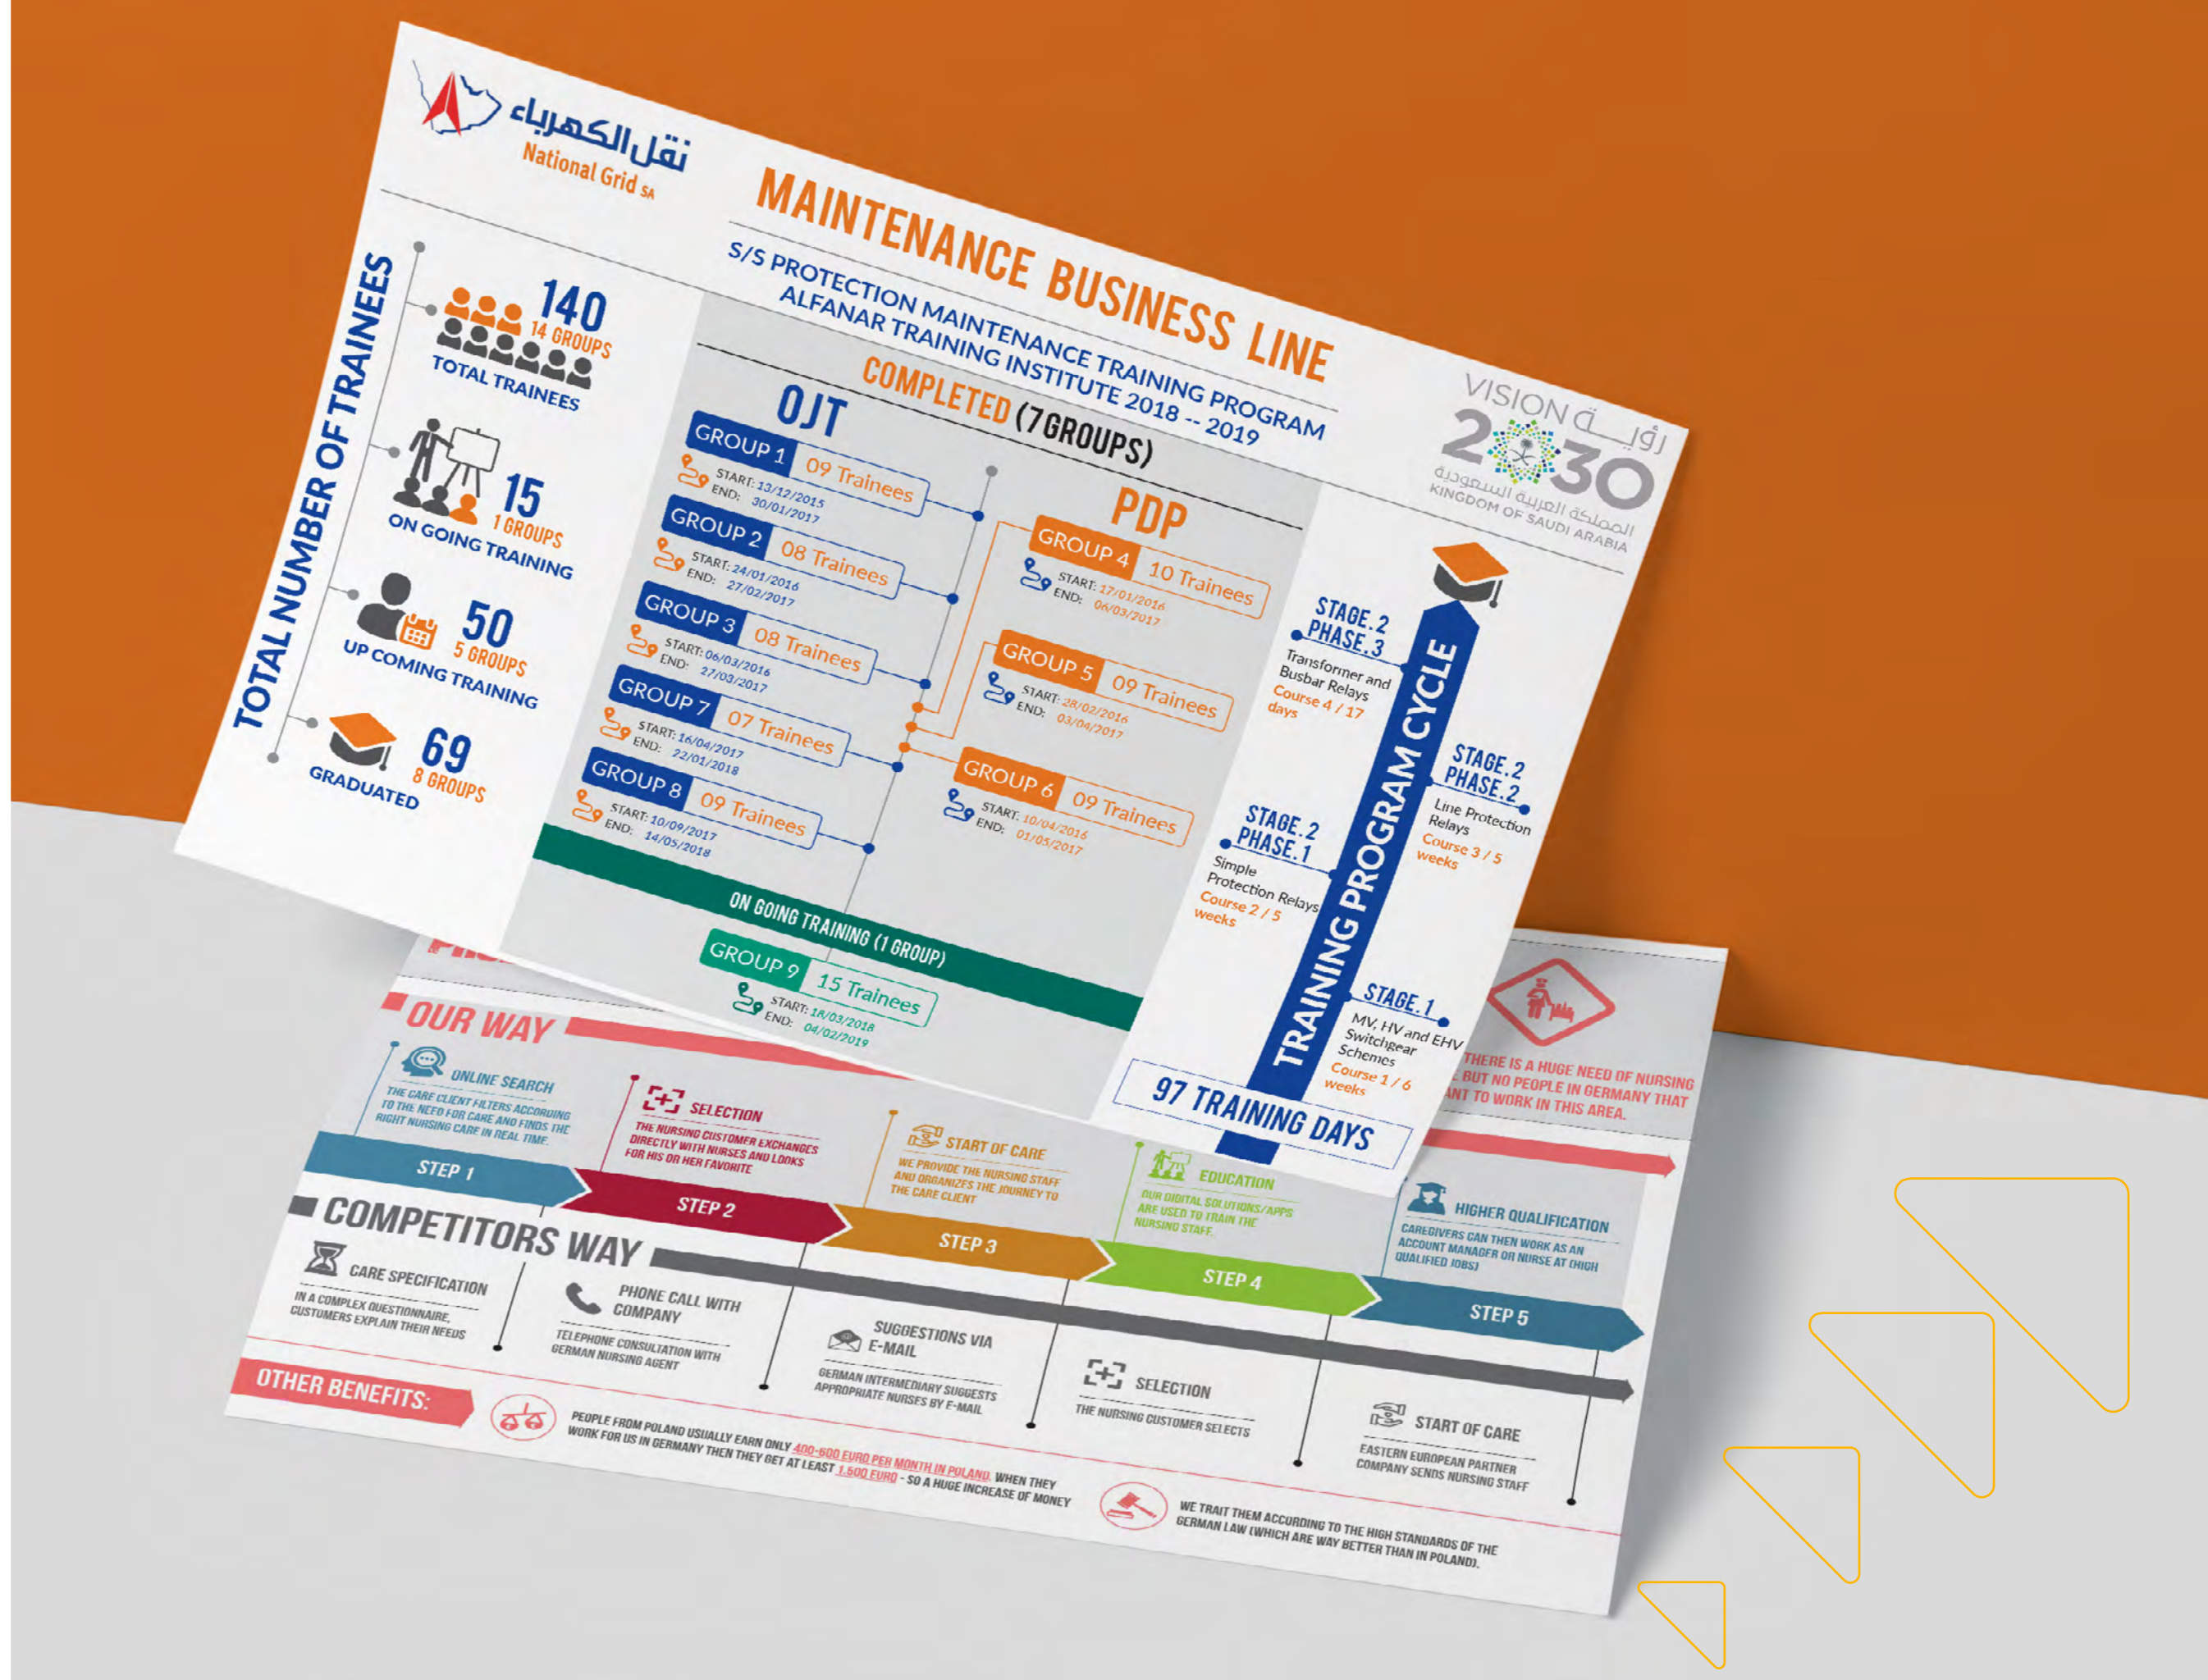

They had data with them for which they came up to us as they wanted to get the data designed in an infographic.

Based on their idea, we suggested an appropriate size and designed the infographics in Adobe InDesign. We kept the data prominent as suggested by them.

APP DESIGNING & DEVELOPMENT

SIGHTSEEING PHILADELPHIA

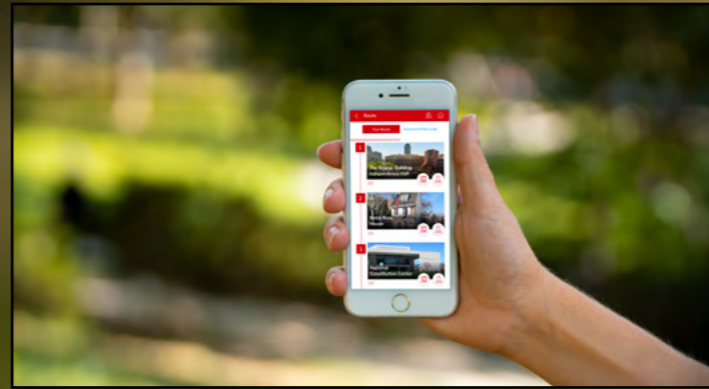

Hop-on Hop-off Tour

Sightseeing is a well-known travel agency situated across the globe that offers sightseeing services to tourists.

The Philadelphia franchise of this company wanted an application developed that would be used by the tourists who are traveling by their buses. By using this application, they will get detailed information about and around Philadelphia, including restaurants, hotels, sports, etc. It would also track the bus routes with a live tracking system.

We designed the entire UI by using Adobe XD and then developed the application for Android and iOS. This app has customized admin, and the client is completely satisfied with this.

www.philadelphiasightseeingtours.com

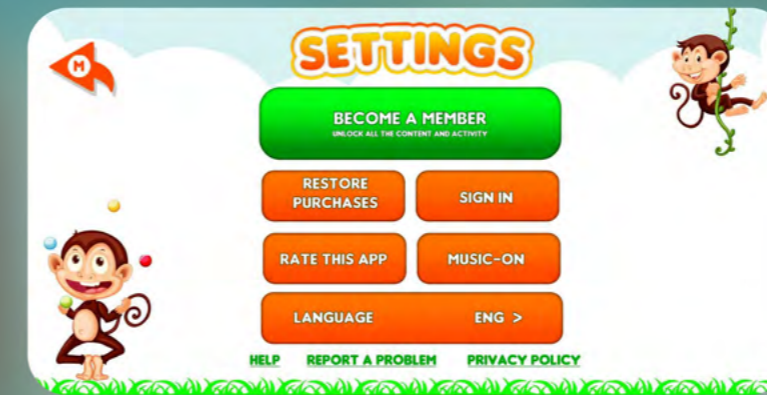

MAGIK PITARA

Kid's learning application

They are a publishing house that offers printed learning books for kids aged 1 to 7.

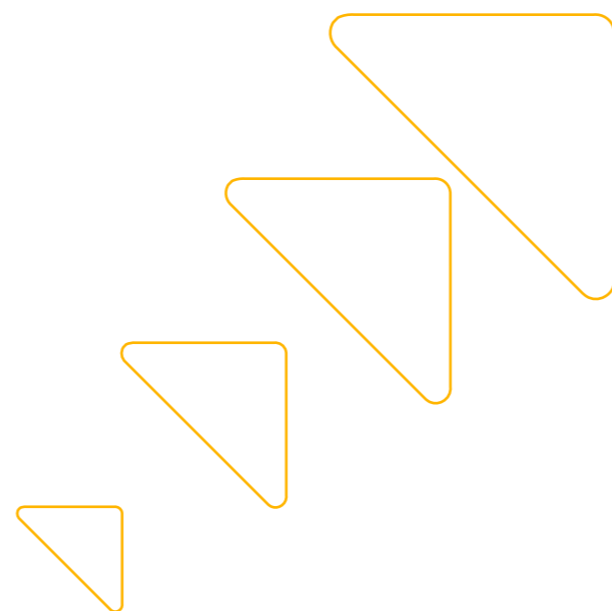

They came to us with a requirement of a well-designed learning app for kids where they can learn while watching videos, e-books, poems, and even while playing games. They also wanted a module for parents to track their kids' activities and other information.

We are giving our 100% to develop this project as they wanted. We've already done the UI at first, and now the application is being developed by our experienced technicians. Interesting games are also being developed simultaneously.

WEB DESIGNING & DEVELOPMENT

MAGIK PITARA

Grant Thornton Annual Report

Grant Thornton is one of the largest accounting networks in the world, and they wanted a website to present their journey to potential customers.

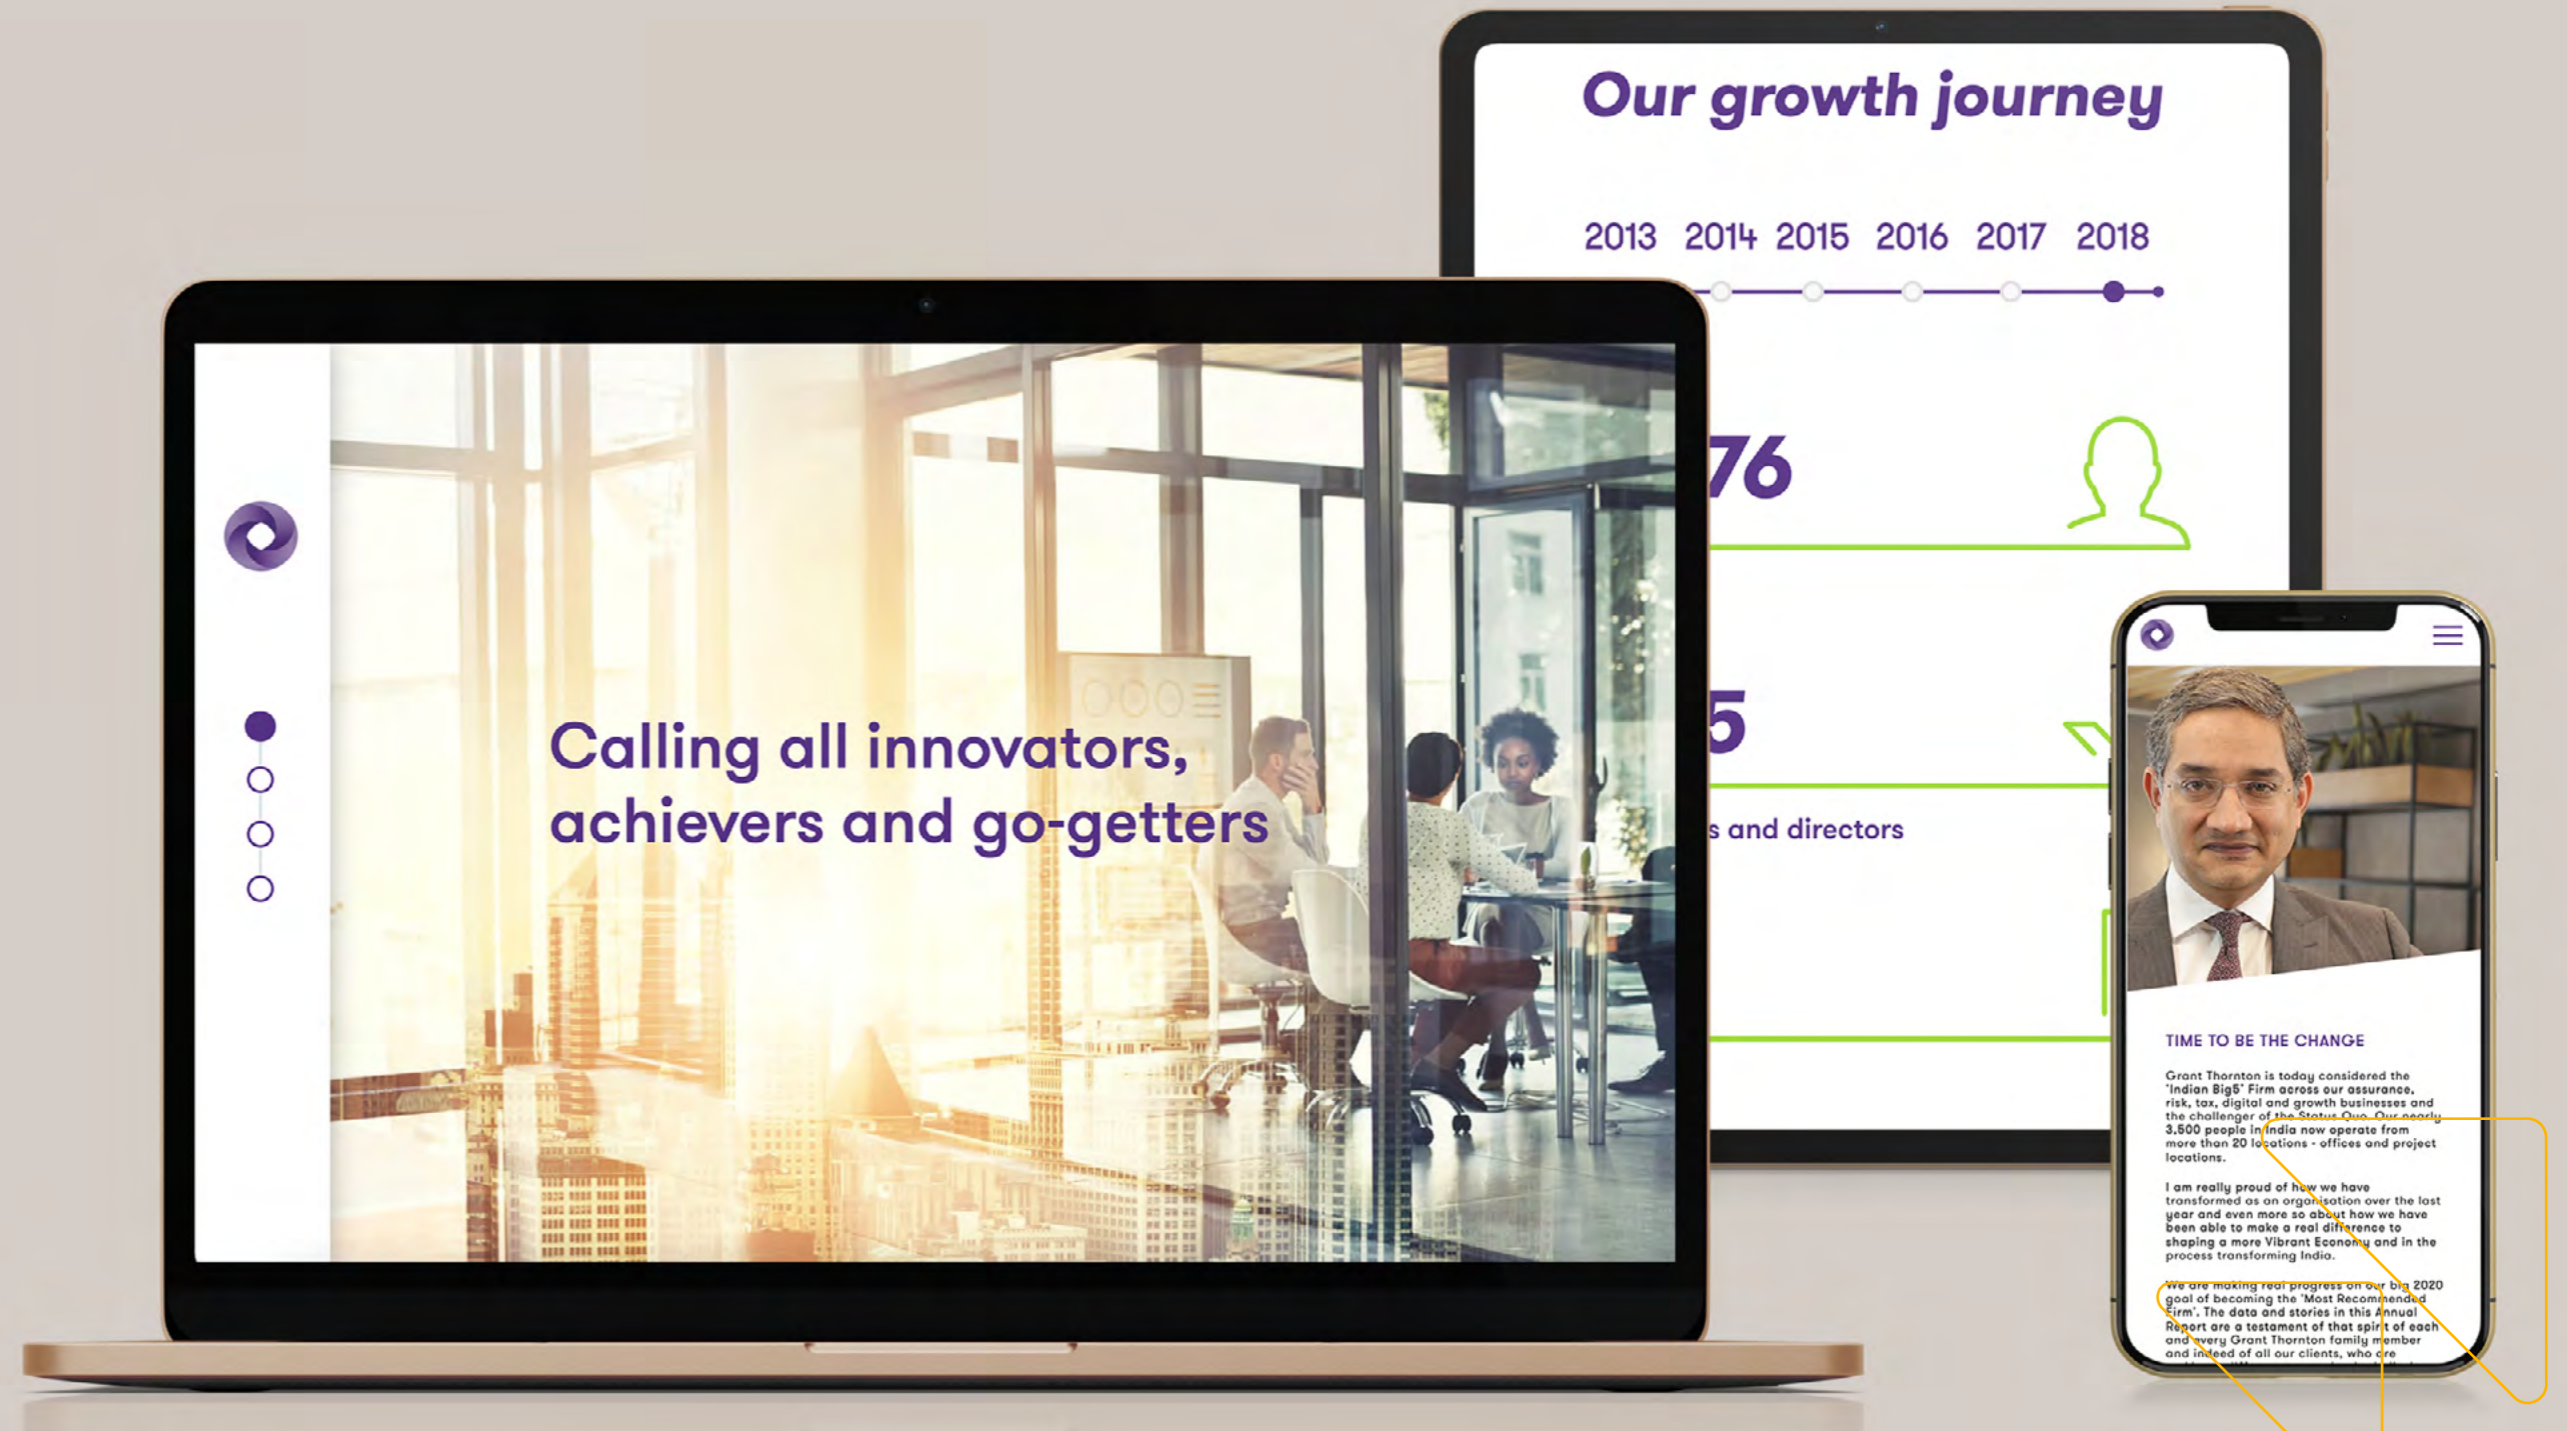

They came to us with a requirement for a website that can show their entire journey in a creative and professional way.

Our expert developers developed the website on Angular with HTML5. After understanding their requirements and their journey, we decided on the flow of the website as well as the animations. We added interactive infographics in an advanced way. Though it was challenging for us, we completed that and provided them with their desired website.

▶▶ GAMING DEVELOPMENT

LUDO

Ludo Designing and Development

The client had a Ludo game project and came to us to upgrade the functionality of the project along with various implementations.

The client was looking for various implementations and provided us with an insight into the required detail.

It was one of the finest projects done by us where we developed 4 modules in the game- Classic, Rapid, Score based, and Private Table. We understood clients' requirements and did the UI. The game was done by Unity 3D, and also we provided our client with RNG certification. We have created the entire back-end from where the client was willing to handle the game.

POKER

Poker Designing and Development

Poker World is a poker gaming platform that was developed by us as per our client's requirements.

The client was looking for a poker game development to provide a secure and reasonable experience of the best multiplayer poker games and tournaments. They wanted the games to have different modes of online Texas Holdem and Omaha.

We developed the game on Unity 3D and also added different cash tables to choose from. We fulfilled all the requirements of the clients and provided them with a game that could offer their customers a satisfying gaming experience.

ICO/ CRYPTO

BARTER TRADE

Whitepaper for ICO Launch

The client was willing to launch the ICO, and for that purpose, the client had to launch a whitepaper simultaneously.

The information was given to us in a word file, and we had to make it infographically without showing the proper road map of that coin, USP, their model, and working.

We developed that whitepaper while keeping in mind all the requirements. After understanding the client's needs, we designed the whitepaper in InDesign. The client was very satisfied with the outcome.

SLIC

A New Blockchain Model

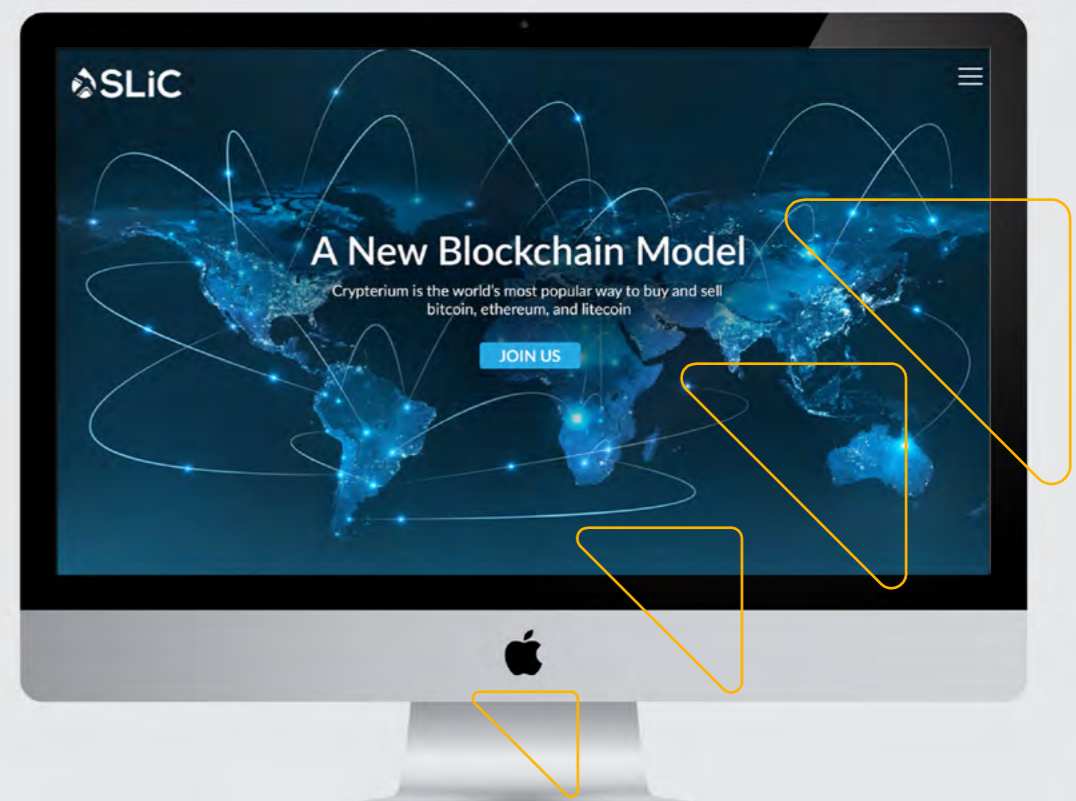

The client was willing to have a website that gives an insight into the coin and also can provide information to users.

The client wanted the design to match the other brand collaterals in line with the company branding guidelines.

We understood the company branding guidelines properly before developing that site. After understanding the requirements properly, we made the design with a modern touch and specifically used the images. It was Photoshop by our experienced and professional team members..

Get in touch

SLiC

A New Blockchain Model

The client wanted to design a brochure to support their website and make it handy for the users.

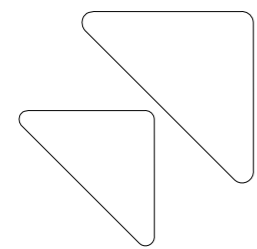

The client gave us the information in raw format, and they wanted to make it a little modern and handy. They also wanted us to make sure that the brochure can properly support their website.

We understood the client's requirements and then designed the brochure in line with the website, and when it was made, it completely supported the website and met all the requirements..
